Manage Your Health at Your Convenience on the Patient Portal

The Patient Portal is available 24/7 from your computer or smart device.

Patients can now easily & securely:

- View test results
- Access electronic health records
- Pay hospital bills
- Send doctors health information

For more information, visit:
www.ValleyBaptist.net

Get Access

Patients can better manage their health by accessing the Patient Portal through our main hospital website.

Get Informed

Whether you want to view your test results, see your list of medications or share information with your doctor, the answers you need are easily accessible online.

USE *THE PATIENT PORTAL* TO:

- *Access* your patient health records, including immunizations, medications and allergies
- *Download* your health information to share with other doctors
- *View* results including lab, radiology and pathology
- *Pay* your hospital bill
- *Download* the HealtheLife Patient Portal app (iPhone and Android users)

For more information, contact a patient registration representative or log on to your online account at:
www.ValleyBaptist.net/patients-services

*First time registration requires an in-person visit with a Patient Access Representative for security purposes. If you are currently a patient and did not enroll upon admission, please contact Patient Access at 714-966-8077.

You may register for a secure Patient Portal account during the hospital admission process, but you must have a valid email address. We will send an email to the address you provide with instructions to create a secure account. **If you don't receive an email or have trouble activating your account, please contact:**
Patient Portal Support Center 888.252.8149
